The current team working on data requests consists of two individuals, a primary data analyst and a data manager. These positions currently intake all Medicaid data requests, gather the requirements, and then translate them to reports that they run to pull the information being requested. In one year, this team of two has responded to approximately 500 data requests, this doesn't include dashboards and is still facing a significant backlog of data requests dashboard creation.

- One Project Coordinator to assist with documentation, schedule organization, and data request requirements collection and analysis. This position will require a familiarity with data reporting, reporting tools, and workflow diagrams.
- One Program Coordinator to assist with administration of the Missouri Medicaid Enterprise solutions, including coordinating with policy and vendors for system changes, as well as contract and vendor management.
- One Testing Coordinator to serve as the lead analyst that will coordinate and monitor testing across multiple Missouri Medicaid Enterprise vendors to ensure successful solution enhancement releases

Section 11.610 – MO HealthNet Division – MHD Transformation

Book 8, Page 142

Description: The MHD Transformation program is a combination of initiatives the MO HealthNet Division (MHD) is in the process of implementing, with the goal of transforming Medicaid. Missouri's Medicaid program is an important safety net for Missouri's most vulnerable populations, providing health care and support for nearly one million Missourians. Analysis of historical trends indicates that the financial sustainability of Missouri's Medicaid program is currently under pressure. Significant changes in the structure and performance of Missouri's Medicaid program would be necessary to bring Medicaid spending growth in line with projected economic growth for the state. The initiatives are wide-ranging, including operational improvements to bring the program up to date with common practices among other state Medicaid programs, as well as best practices and more transformational changes.

Section 11.620 – MO HealthNet Divisions – Information Systems

Book 8, Page 163

Description: This core request is for the continued funding of MO HealthNet's Information Systems. Core funding is used to pay for the Medicaid Management Information Systems (MMIS) contract. The MMIS contractor processes fee-for-service (FFS) claims and managed care encounter data, and calculates provider and health plan payments. Managed care encounter data is processed through the system similar to FFS claims. The data is used by the Managed Care Unit for contract administration and rate setting purposes.

This project will involve contracting for security risk assessments of the Medicaid Management Information System (MMIS), Clinical Management System for Pharmacy (CMSP), Business Intelligence Solution – Enterprise Data Warehouse (BIS-EDW), Electronic Visit Verification (EVV) Aggregator Solution (EAS), Beneficiary Support and Premium Collections (BSPC) Solution, Program Integrity (PI) Solution, and the Alivia PI Solution. With the increasing attempts to compromise public systems and access personal information for use in identify theft or fraud and abuse, MO HealthNet considers it prudent to utilize independent contractors to conduct periodic security risk assessments on the healthcare data systems. Upon completion of the assessment, the Security Risk Assessment vendor will engage the MME Solution vendors and state staff to mitigate the risks identified in the reports.														

Section 95.621(f) of the Social Security Act requires periodic reviews for state automated data processing solutions of the security plans and requirements consistent with recognized industry standards and requires security risk assessments of state systems when new systems are implemented or when significant system changes occur to existing systems.

This NDI supports the replacement of the MO HealthNet pharmacy system and support services. This project will modernize and bring under one contact the pharmacy adjudication, rebate, and call center systems to allow the MHD to take advantage of new technologies and reimbursement methodologies to improve services to MO HealthNet participants in the future and capture additional pharmaceutical manufacturer rebates.

The DSS submitted and received approval of an NDI for SFY 2022 for the MMIS Pharmacy Solutions of \$11M. Based on the labor market and current contract increases, the DSS estimates needing additional authority to support the implementation of the Pharmacy Solution.

Section 11.700 – MO HealthNet Division – Pharmacy Services

Book 8, Page 214

Description: This item funds the pharmacy program which is necessary to maintain pharmacy reimbursement at a sufficient level to ensure quality health care and provider participation. Funding provides pharmacy services for both managed care and fee-for-service populations. Beginning on October 1, 2009, pharmacy services were carved-out of the managed care capitation rates and the state began administering the pharmacy benefit for participants enrolled in managed care as well as participants enrolled in fee-for-service.

Legal Base: State Statute: Sections 208.152 and 208.166, RSMo.; Federal Law: Social Security Act Section 1902(a) (12).; State Regulation: 13 CSR 70-20.; Federal Regulation: 42 CFR 440.120

Funding Sources: General Revenue (0101), Title XIX-Federal Fund (0163), Pharmacy Rebates Fund (0114), Third Party Liability Collections Fund (0120), Pharmacy Reimbursement Allowance Fund (0144), Health Initiatives Fund (0275), and Premium Fund (0885)

This request is for additional General Revenue to pick up the loss of federal dollars caused by the reduction in FMAP and EFMAP rates. This request will be offset by federal core cuts to FMAP funding. This request is needed due to the ending of the Public Health Emergency and additional enhanced FMAP AEG funding which has reduced the FMAP federal participation percentage.

In SFY23, rates for some Dental procedure codes were increased to be 80% of the 50th percentile of the comparable Usual Customary and Reasonable (UCR) rates, while in SFY24, Ambulatory Surgical Center (ASC) rates were increased to 90% of the Medicare allowed rate. However, these rate increases did not include dental anesthesia codes and dentist extraction codes. Due to the ASC rate increase in FY24, this caused the dental extraction codes to not be aligned with the corresponding codes within the ASC's. This new decision item would increase the rates of dental anesthesia codes to also be 80% of the 50th percentile of the comparable UCR rates, while it would increase dentist extraction codes to be 38.5% of the 50th percentile of the comparable UCR rates to be more aligned with the corresponding rates within the ASC's.

Section 11.730 – MO HealthNet Division – Premium Payments

Book 9, Page 328

Description: This item funds premium payments for health insurance through the following MO HealthNet programs: (1) Medicare Buy-In program for individuals dually enrolled in MO HealthNet and Medicare; (2) Health Insurance Premium Payment (HIPP) program for individuals enrolled in MO HealthNet and commercial or employer-sponsored health insurance. Payment of these premiums allows MO HealthNet to transfer medical costs from the MO HealthNet program to Medicare and other payers. The purpose of the Medicare Savings Program and the Health Insurance Premium Payment (HIPP) Program is to allow states to enroll certain groups of eligible individuals in Medicare or private insurance and pay their monthly premiums to transfer medical costs from the Title XIX Medicaid program to the Medicare program - Title XVIII or other payers. This process allows the state to realize cost savings through substitution of Medicare or other payer liability for the majority of the medical costs before a provider may seek reimbursement for the remaining uncompensated portion of the services

Section 11.735 – MO HealthNet Division – Nursing Facility Payments

Book 9, Page 345

Description: This core is for on-going funding of payments for nursing facility services provided to MO HealthNet participants. Providers are reimbursed for MO HealthNet participants based on the participants' days of care multiplied by the facility's Title XIX per diem rate less any patient surplus (i.e., funds contributed by the participant). A per diem rate is established for each nursing facility by the Institutional Reimbursement Unit (IRU) of the MO HealthNet Division (MHD) utilizing a prospective reimbursement system. A prospective rate is established on a particular cost report year and may be adjusted in subsequent years for various items, such as acuity adjustments, quality measures, or global per diem adjustments granted to the industry as a whole. Rates may be recalculated on a more recent cost report year, which is referred to as rebasing.

MO HealthNet reimbursement for hospice care is made at one of four predetermined rates for each day in which an individual is under the care of the hospice. The four levels of care are routine home care, continuous home care, inpatient respite care, or general inpatient care. The rate paid for any day may vary, depending on the level of care furnished. Payment rates are adjusted for regional differences in wages. Dollar amounts are based on FY23 data assuming a 2.5% increase; this will be updated when final federal increase is received.

Section 11.750 – MO HealthNet Division – Ground Emergency Medical Transportation (GEMT)

Book 9, Page 426

Description: The Ground Emergency Medical Transportation (GEMT) Program is a voluntary program that makes supplemental payments to eligible GEMT providers who furnish qualifying emergency ambulance services to Department of Social Services, MO HealthNet Division (MHD) participants. Providers must agree to fund the non-federal share of GEMT uncompensated cost reimbursement using an intergovernmental transfer (IGT) payment method. MHD will make supplemental payments to qualifying ambulance providers up to the amount uncompensated by all other sources of reimbursement. Total reimbursement from MHD, including the supplemental payment, will not exceed one hundred percent of actual costs.

Section 11.760 – MO HealthNet Division – Managed Care

Book 9, Page 443

Description: The MO HealthNet Division operates a Health Maintenance Organization (HMO) style managed care program in which the state of Missouri contracts with MO HealthNet Managed Care health plans (also referred to as Managed Care Organizations (MCOs)). The MO HealthNet Managed Care health plans provide health care services to enrollees and are paid a monthly capitation payment for each enrollee they serve. MO HealthNet Managed Care's objectives are to provide the means to ensure access, manage and coordinate benefits, and monitor quality of care and outcomes while controlling costs. As of May 1, 2017, statewide participation in MO HealthNet Managed Care is mandatory for the following MO HealthNet eligibility groups: MO HealthNet for Families - Adults and Children; MO HealthNet for Children; MO HealthNet for Pregnant Women; Children's Health Insurance Program (CHIP); Show Me Healthy Kids (SMHK); Show Me Healthy Babies Program (SMHB).

DEPARTMENT OF SOCIAL SERVICES

Section 11.770 – MO HealthNet Division – Hospital Services

Book 9, Page 468

Description: The MO HealthNet Division (MHD) reimburses for inpatient and outpatient hospital services for fee-for-service participants. These services are mandatory Medicaid-covered services and are provided statewide. Inpatient hospital services are medical services provided in a hospital acute or psychiatric care setting for the care and treatment of MO HealthNet participants. Outpatient hospital services include preventive, diagnostic, emergency, therapeutic, rehabilitative, or palliative services provided in an outpatient setting. The listing from the Department of Health and Senior Services (DHSS) dated 6/29/2023 lists a total of 168 licensed hospitals which includes 24 additional campus locations, and 7 hospitals that are Psychiatric Residential Treatment Facilities (PRTF).

Legal Base: State Statute: Sections 208.152 and 208.153, RSMo.; Federal Law: Social Security Act Sections 1905(a) (1) and (2), 1923(a)-(f); Federal Regulation: 42 CFR 440.10 and 440.20

This request is for additional General Revenue to pick up the loss of federal dollars caused by the reduction in FMAP and EFMAP rates. This request will be offset by federal core cuts to FMAP funding. This request is needed due to the ending of the Public Health Emergency and additional enhanced FMAP AEG funding which has reduced the FMAP federal participation percentage.

Section 11.772 – MO HealthNet Division – Transformation of Rural Community Health (ToRCH)

Book 9, Page 481

Description: This section provides funding focused on getting six rural hospitals in Missouri operational as a Rural Hospital Health Hub. Funding will be based on the size of the hospital and community they serve. This project will utilize a community information exchange platform to track referrals for social determinants of health and the closed-loop outcome. The platform will track the activity and behaviors of the hospital, participant, community organizations, and financials. These hubs will be for proactive treatment that reduces reactive treatment in-house at the hospitals.

Section 11.780 – MO HealthNet Divisions – Physician Payments for Safety Net Hospitals

Book 9, Page 495

Description: Safety net hospitals are critical providers of care to the Medicaid and uninsured populations, and must be able to attract and maintain a sufficient supply of qualified physicians in order to provide quality services. There are three entities that currently qualify for the additional physician payments: (1) University Health Truman Medical Center; (2) University of Missouri – Kansas City; (3) University Health Lakewood Medical Center. This program was established in July 2001 to provide a mechanism to fund enhanced payments to these safety net hospitals who traditionally see a high volume of Medicaid and uninsured patients.

Section 11.785 – MO HealthNet Divisions – Federally Qualified Health Centers (FQHCs) Distribution

Book 9, Page 502

Description: This section provides funding for Federally Qualified Health Centers (FQHCs) services provided to fee-for-service MO HealthNet participants and Health Home payments. This core request provides state grants to assist FQHCs with infrastructure, equipment and personnel development so the uninsured and underinsured population will have increased access to health care, especially in medically underserved areas. These funds address gaps in preventive services and management of chronic conditions and incentive payments.

Section 11.800 – MO HealthNet Division – Health Homes

Book 9, Page 532

Description: MO HealthNet operates the Primary Care Health Home Program for participants diagnosed with two chronic conditions or diagnosed with one chronic condition and at-risk for development of a second. Clinical care management per member per month (PMPM) payments are made for the reimbursement of required contracted services, and the cost of staff primarily responsible for delivery of these specified health home services who are not covered by other MO HealthNet reimbursement methodologies. This core funds PMPM payments made to health homes.

Section 11.805 cont. – MO HealthNet Division – Intergovernmental Transfer (IGT) Safety Net Hospitals

Book 9, Page 549

Description: Safety net hospitals traditionally see a high volume of MO HealthNet/uninsured patients. This item funds payments for MO HealthNet participants and the uninsured through intergovernmental transfers for safety net hospitals. Federal Medicaid regulation (42 CFR 433.51) established in 2010 allows state and local governmental units (including public providers) to transfer funds to the state as the non-federal share of Medicaid payments. These transfers are called intergovernmental transfers (IGTs). This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services. The following state owned/operated hospitals are eligible for payment from this appropriation: University of Missouri Hospital and Clinics; Center for Behavioral Medicine; Hawthorn Children's Psychiatric Hospital; Northwest Missouri Psychiatric Rehabilitation Center; Fulton State Hospital; Southeast Missouri Mental Health Center; and St. Louis Forensic Treatment Center. The following public hospitals are eligible for payment from this appropriation: University Health Truman Medical Center; and University Health Lakewood Medical Center.

Section 11.810 – MO HealthNet Division – Children’s Health Insurance Program (CHIP)

Book 9, Page 557

Description: This item funds health care services provided to certain children age 18 and under who exceed the eligibility limits of traditional MO HealthNet coverage and would otherwise be uninsured. Effective May 1, 2017, Managed Care was geographically extended statewide. All children are mandatorily enrolled in MO HealthNet Managed Care but may opt out and receive their services through fee-for-service under certain circumstances. The Children's Health Insurance Program (CHIP) Title XXI funds are utilized for this expanded MO HealthNet population. Services provided under the CHIP program are reimbursed individually under the fee-for-service program or through a monthly capitation rate paid to the MO HealthNet Managed Care health plans that contract with the state. Eligibility requirements are: (1) A child who is under 19 years of age; (2) Family income below 300% of the federal poverty level (FPL); and (3) No access to other health insurance coverage for less than \$95 to \$233 per month during SFY 2024 based on family size and income.

Legal Base: State Statute: Sections 208.631 through 208.658, RSMo.; Federal Law: Social Security Act, Title XXI; Federal Regulation: 42 CFR 457

Funding Sources: General Revenue (0101), Title XXI-Children’s Health Insurance Program Federal Fund (0159), and Federal Reimbursement Allowance Fund (0142)

Section 11.815 – MO HealthNet Division – Show-Me Healthy Babies Program

Book 9, Page 569

Description: This item funds services for targeted low-income unborn children from families with household incomes up to 300% of the Federal Poverty Level (FPL). Services include all prenatal care and pregnancy-related services that benefit the health of the unborn child and that promote healthy labor, delivery, birth, and postpartum care. Senate Bill (SB) 106 and SB 45, effective July 7, 2023, extended the MO HealthNet coverage for these low-income women which will include full Medicaid benefits for the duration of the pregnancy and for one year following the end of the pregnancy. Coverage for the child continues for up to one year after birth (at that time the child may be eligible for Medicaid or CHIP) to help foster a child's healthy upbringing, unless otherwise prohibited by law or unless otherwise limited by the Missouri General Assembly through appropriations.

This request is for additional General Revenue to pick up the loss of federal dollars caused by the reduction in FMAP and EFMAP rates. This request will be offset by federal core cuts to FMAP funding. This request is needed due to the ending of the Public Health Emergency and additional enhanced FMAP AEG funding which has reduced the FMAP federal participation percentage.

This NDI is needed to fund an increase for managed care medical, newborn delivery, and Neonatal Intensive Care Unit (NICU) services to ensure that managed care payments are actuarially sound. The FY23 rates are based on an estimated budget trend of 3.0% increase developed utilizing actuarial standards which consider historical trends in utilization and inflation, budget and legislative changes, and federal requirements. The NDI will include actuarial increases for Managed Care and Show Me Healthy Babies.

Section 11.820 – MO HealthNet Division – School District Medical Claiming

Book 9, Page 582

Description: This item funds payments for School District Administrative Claiming (SDAC) and Individualized Education Plan (IEP) school-based health services (SBHS). This program allows school districts to obtain Medicaid funding for administrative activities that support direct services, designated medical services that are provided to children with disabilities in the school district (direct services), and specialized transportation for these direct services. Administrative activities are reimbursed through the SDAC program, which include activities associated with health and outreach programs for children in the school district. Direct services include physical, occupational, and speech evaluation and therapy services; audiology; personal care; private duty nursing; and behavioral health services that are medically necessary, and are included in an IEP for school age children. Specialized transportation services are provided to a child receiving IEP direct services who has a need for specific transportation as outlined in their IEP, and who would not otherwise get services while attending school if that need were not met. Some examples of specialized transportation services include specialized equipment or a specially adapted bus. As a result of allowing schools to receive reimbursement, 492 school districts are currently participating in SDAC, 312 school districts are enrolled to participate in the direct services cost settlement program, and 24 school districts are enrolled to participate in the IEP specialized transportation program.

Section 11.825 – MO HealthNet Division – Blind Pension Medical Benefits

Book 9, Page 594

Description: This section provides funding for a state-only health care benefit for Blind Pension participants who do not qualify for Title XIX Medicaid. The objectives of the program are to ensure proper health care for the general health and well-being of MO HealthNet participants, to ensure adequate supply of providers, and to increase preventive services for all MO HealthNet participants. Services provided under the Blind Pension Medical Program are reimbursed individually under the fee-for-service program and comprise 0.2% of the total MO HealthNet Division expenditures.

Section 11.830 cont. – MO HealthNet Division – Adult Expansion Group – MO MAPS

Book 9, Page 614

Description: This funding is for the Missouri Medicaid Access to Physician Services (MO MAPS) Program to provide supplemental payments to the State’s essential Medicaid providers—the University of Missouri Health System (MU Health), University Health (Truman Medical Center), and University Health Physicians (Truman Medical Center). The MO MAPS Program is a payment arrangement intended to supplement, not supplant, the base managed care rates negotiated between health plans and providers. The MO MAPS Program will operate as a pool, in which a set dollar amount is established before the start of the fiscal year that MO HealthNet will distribute to the health plans. Health plans use the pool to increase reimbursement to providers based on utilization and the reimbursement is distributed according to predetermined criteria memorialized in agreements between them and the providers.

Section 11.890 – Department of Social Services – EFMAP to Title XIX Transfer

Book 9, page 682

Description: This request is to update the Federal Medical Assistance Percentage (FMAP) funding within the Title XIX Federal Fund. Two new non-count transfer appropriations are being requested to transfer dollars to the Title XIX Federal Fund – the Enhanced FMAP (EFMAP) and EFMAP Expansion Funds. This request is needed to adjust amounts due to the sun setting of EFMAP match related to the Public Health Emergency (PHE). The State will continue to make prior period adjustments during this time. If not funded, then General Revenue (GR) will be needed to pick up the Adult Expansion Group (AEG) and PHE FMAP funding reductions. (*Non-count*)
